On December 6, 2022, Hyperfine, Inc. (the “Company”) committed to an organizational restructuring designed to decrease its costs and create a more streamlined organization to support its business. As a result, the Company has terminated approximately 13% of its global workforce including, among others, the employees of its subsidiary, Liminal Sciences, Inc. In connection with the restructuring, the Company currently estimates it will incur up to \$1.7 million of costs, consisting primarily of cash severance costs, other severance benefits, fixed asset impairment costs and other related restructuring costs. The Company expects to substantially complete the restructuring in the fourth quarter of 2022 and the first quarter of 2023. The estimates of costs and expenses that the Company expects to incur in connection with the restructuring are subject to a number of assumptions and actual results may differ materially. The Company may also incur additional costs not currently contemplated due to events that may occur as a result of, or that are associated with, the restructuring.
